

Acer palmatum 'Pink Filigree'

Výška	3 m
Šírka	2-3m
Koruna	flat-topped spherical, mushroom-shaped, dark, dense crown, capricious growing
Kôra a vetvy	smooth, grey-brown
Listy	palmatifid with 5 to 7 deeply dissected leaf segments, purplish red, leaf stem red
Jesenné sfarbenie	Oranžová, Červená
Kvety	red flower corymbs, May
Plody	inconspicuous
Tríne	Žiadny
Jedovatosť	Zvyčajne nie je jedovaté pre ľudí a väčšie zvieratá
Typ pôdy	any, except clay, and not too dry
Spevnené plochy	Netoleruje spevnené plochy
Zóna odolnosti	6 (-23,3 do -17,8 °C)
Odolnosť voči vetru	moderate to poor
Ostatná odolnosť	Odolné mrazu (WH 1–6)
Použitie	stromy do nádob, strešné záhrady, malé záhrady, dvory
Pôvod	Fratelli Gilardelli, Agrate Brianza, Italy, ca 1994

Low, broad shrub, with widely overhanging branches if grafted onto a stem. The leaves are palmate and the leaf segments are also dissected nearly to the main veins. The growth pattern and leaf shape are typical characteristics of the “Dissectum” group, to which ‘Pink Filigree’ belongs. On emerging, the leaves are pinkish red with yellow veins. In summer the leaf is a dark, purplish red and forms an attractive background to the lighter coloured, young shoots. The autumn colour is dark orange-red. ‘Pink Filigree’ resulted from a hybridisation of *Acer palmatum* ‘Ornatum’ and ‘Stella Rossa’.
