

Acer platanoides 'Autumn Blaze'

Výška	15 - 20 m, fast growing
Šírka	10-15m
Koruna	ovoid, dark, dense crown
Kôra a vetvy	branches light brown, bark dark grey
Listy	5/7 lobes, greenish-yellow
Jesenné sfarbenie	Žltá, Oranžová
Kvety	yellow-green, in corymbs, before the leaf development
Plody	winged nutlets (samara), 3.5 - 4.5 cm long
Trne	Žiadny
Jedovatosť	Má jedovaté časti
Typ pôdy	any soil, except peat
Pôdna vlhkosť	Odolné voči krátkodobému zaplaveniu
Spevnené plochy	Toleruje čiastočné spevnenie
Zóna odolnosti	4 (-34,4 do -28,9 °C)
Odolnosť voči vetru	not very sensitive, not resistant to sea wind
Ostatná odolnosť	Odolné mrazu (WH 1–6)
Stromy pre zvieratá a hmyz	Odolné mrazu (WH 1–6), Cenné pre motýle
Použitie	bulváre a široké ulice, priemyselné oblasti
Tvar	Vysokokmeň, Viackmeň

Vigorously growing, large tree with a straight central leader and a regular, ovoid crown, up to 20 m in height. The young leaf is bright yellow to greenish-yellow. Later in summer it turns yellow-green. Very striking, especially in spring, but in summer, too, the brightly coloured young shoots give the tree a fresh appearance. In autumn the leaf turns yellow to orange. Not to be confused with Acer xfreemanii Autumn Blaze ('Jeffersred'), which is a completely different tree. Highly suitable for narrower avenues and streets, and on squares. Grows on any soil, but does not tolerate stagnating groundwater and peaty soils.
