

Fagus sylvatica 'Purple Fountain'

Výška	8 - 12 m
Šírka	3-5m
Koruna	narrow, weeping, dark, dense crown, capricious growing
Kôra a vetvy	smooth, grey bark, soft
Listy	oval to ovate, reddish brown, 4 - 9 cm long
Kvety	small, inconspicuous flower catkins, May
Plody	nuts, in cupules covered with brushy spines, 1 - 2 cm
Tŕne	Žiadny
Jedovatosť	Zvyčajne nie je jedovaté pre ľudí a väčšie zvieratá
Typ pôdy	well drained, humic soil, not too wet
Spevnené plochy	Netoleruje spevnené plochy
Zóna odolnosti	5b (-26,0 do -23,4 °C)
Odolnosť voči vetru	moderate
Ostatná odolnosť	Odolné mrazu (WH 1–6)
Tvar	Vysokokmeň, Vetvený
Pôvod	H.J. Grootendorst, Boskoop, Netherlands, 1976

Fagus sylvatica 'Purple Fountain' is a narrow upright tree with a central leader and a height of circa 12 m. The limbs droop down loosely and the spread is circa 2.5 m. The oval to ovate leaves are red brown and 4 - 9 cm. 'Purple Fountain' has a smaller leaf than 'Black Swan' and the colour of the leaf is less dark than 'Purpurea Pendula' and 'Black Swan'. The leaf on the young shoots is strikingly red. The tree is used as a specimen tree and due to its narrow shape extremely suitable for smaller gardens. 'Purple Fountain' grows well in a calcareous soil that is moisture-retentive and well-drained. Winter hardiness zone: 5b
