

Magnolia 'Butterflies'

Výška	5-6 m
Šírka	5-6m
Koruna	oval, half-open crown, capricious growing
Kôra a vetvy	brown, grey
Listy	green
Kvety	soft yellow, intense yellow, flowers in May, fragrant flowers
Plody	green, seldom
Tríne	Žiadny
Jedovatosť	Zvyčajne nie je jedovaté pre ľudí a väčšie zvieratá
Typ pôdy	clay soil, loamy soil, sandy soil, peaty soil, acid soil
Spevnené plochy	Toleruje čiastočné spevnenie
Zóna odolnosti	6 (-23,3 do -17,8 °C)
Odolnosť voči vetru	moderate
Ostatná odolnosť	Odolné mrazu (WH 1–6)
Použitie	bulváre a široké ulice, malé záhrady, dvory
Tvar	Vysokokmeň, Viackmeň
Synonymum	Magnolia x brooklynensis 'Butterflies'

Small tree with a regular, compact, vertical ovoid or oval crown, up to about 6 m. The dark green leaf sometimes turns slightly yellow in autumn, but this is actually of no decorative value. The flowers open before the leaves develop and are about 7 cm across. The petals are soft yellow to deep yellow, while the stamens are a conspicuous red. Due to the good, deep flower colour, 'Butterflies' is one of the better yellow-blossoming hybrid cultivars of Magnolia. Blossoms fairly late in the season, making it less sensitive to night frost damage.
