

Acer cappadocicum var. tricaudatum

Výška	12-14 m
Šírka	8-10m
Koruna	round/spherical, dark, dense crown
Kôra a vetvy	striped, brown, grey
Listy	green, purple
Jesenné sfarbenie	Žltá
Kvety	light yellow, flowers in May
Plody	green
Tříne	Žiadny
Jedovatosť	Zvyčajne nie je jedovaté pre ľudí a väčšie zvieratá
Typ pôdy	clay soil, loamy soil, sandy soil, acid soil
Spevnené plochy	Netoleruje spevnené plochy
Zóna odolnosti	6 (-23,3 do -17,8 °C)
Odolnosť voči vetru	good
Ostatná odolnosť	Odolné mrazu (WH 1-6), Odolné vetru
Stromy pre zvieratá a hmyz	Odolné mrazu (WH 1-6), Odolné vetru, Cenné pre motýle
Použitie	bulváre a široké ulice

This Chinese variety of the Cappadocian Maple forms a round crown. It is particularly decorative in spring. When the young shoots appear, the leaves have a striking purple colour. Although most leaves have five lobes, the two outer lobes are usually very small, so that only the three larger lobes stand out. The variety name 'tricaudatum' ('with three points') makes reference to this. Like the rest of the species, this variety does not tolerate paved surfaces, which limits its use to solitary trees in parks and large gardens.
