

Acer negundo 'Aureomarginatum'

Výška	6 - 10 m, fast growing
Šírka	5-8m
Koruna	wide, egg-shaped, half-open crown
Kôra a vetvy	young twigs shiny green and pruinose
Listy	unevenly feathered, yellow-white margins, up to 20 cm, feathered leaf
Kvety	female, pendent in thick clusters, April
Plody	falcate, winged, in racemes
Trne	Žiadny
Jedovatosť	Zvyčajne nie je jedovaté pre ľudí a väčšie zvieratá
Typ pôdy	few requirements, also in calcareous soil
Spevnené plochy	Netoleruje spevnené plochy
Zóna odolnosti	5a (-28,8 do -26,1 °C)
Odolnosť voči vetru	moderate to poor
Ostatná odolnosť	Odolné mrazu (WH 1–6)
Stromy pre zvieratá a hmyz	Odolné mrazu (WH 1–6), Cenné pre motýle
Použitie	priemyselné oblasti
Tvar	Vysokokmeň, Viackmeň
Pôvod	Dieck Baumschulen, Germany, 1885

Small to medium-sized tree (sometimes large shrub) with a wide, upright growth habit, reaching a height of circa 6 - 10 m. The differences with the other cultivars of *A. negundo* are few, but for the colour of the leaves. 'Aureomarginatum' has dark green leaves with creamy-yellow to cream coloured margins. Regularly completely creamy-yellow leaves appear on the tree too. During the summer months this “variegated” effect becomes less conspicuous. The tree grows both on wet and dry sites. It has a deep rooting main root which branches out strongly. This is an old female cultivar, dating from 1885. 'Aureomarginatum' can perfectly be applied in parks and large gardens.
