

Acer tataricum HOT WINGS ('Garann')

Výška	4-6 m
Šírka	4-6m
Koruna	round/spherical, dark, dense crown
Kôra a vetvy	grey
Listy	green
Jesenné sfarbenie	Žltá, Oranžová, Červená
Kvety	white, flowers in May
Plody	red
Tŕne	Žiadny
Jedovatosť	Zvyčajne nie je jedovaté pre ľudí a väčšie zvieratá
Typ pôdy	clay soil, loamy soil, sandy soil, peaty soil, acid soil
Pôdna vlhkosť	Vhodné do suchých pôd
Spevnené plochy	Toleruje čiastočné spevnenie
Zóna odolnosti	3 (-40,0 do -24,5 °C)
Odolnosť voči vetru	fairly to good
Ostatná odolnosť	Odolné mrazu (WH 1–6), Odolné vetru, Odolné posypovej soli
Stromy pre zvieratá a hmyz	Odolné mrazu (WH 1–6), Odolné vetru, Odolné posypovej soli, Cenné pre včely (medonosné)
Použitie	stromy do nádob, priemyselné oblasti
Tvar	Vysokokeň

Small but broad tree with a broad, virtually round crown. The leaves are 3-lobed, the middle lobe being significantly longer than the two side lobes. The leaves are bright green, turning yellowy orange to bright red in autumn. The fruits also turn bright red for several weeks as they ripen. This happens before the leaves change colour in autumn, so that the red fruits stand out attractively. Both the fruit and the autumn coloration benefit from a sunny location. A very hardy plant that flourishes on almost any soil type and is highly resistant to air pollution, drought and road salt.
