

Carpinus caroliniana 'Sentinel Dries'

Výška	6-8 m
Šírka	5-8m
Koruna	oval, dark, dense crown, capricious growing
Kôra a vetvy	grey, bluegrey
Listy	green, red
Jesenné sfarbenie	Oranžová, Červená
Kvety	green, flowers in April
Plody	brown
Tŕne	Žiadny
Jedovatosť	Zvyčajne nie je jedovaté pre ľudí a väčšie zvieratá
Typ pôdy	clay soil, loamy soil, sandy soil, peaty soil
Pôdna vlhkosť	Vhodné do vlhkých pôd
Spevnené plochy	Toleruje čiastočné spevnenie
Zóna odolnosti	4 (-34,4 do -28,9 °C)
Odolnosť voči vetru	good
Ostatná odolnosť	Odolné mrazu (WH 1–6), Odolné vetru
Použitie	bulváre a široké ulice
Tvar	Vysokokmeň

This medium-sized tree with a densely branched, oval crown grows to a height of about 6-8 m. The species *C. caroliniana* is somewhat variable in shape. Low, wide trees occur, but also well upright growing clones. 'Sentinel Dries' fulfils the need for a tree-shaped cultivar with an oval crown. The tree does grow somewhat erratically, giving it a more informal character. The young leaves are slightly reddish-tinged, while the summer leaves are dark green. In autumn, the leaves turn a beautiful orange-red.

'Sentinel Dries' has few soil requirements and grows best in humus-rich loamy soil. Temporarily tolerates a lot of moisture. Was marketed by Tree Nursery Pavia, Deerlijk, Belgium. Hardiness zone 4
