'Notary apple' is a good growing medium-sized tree with a semi-open, flattened spherical crown with a height of 6-8 m. The flower buds are pink and the whitish-pink flowers open in April. The apples are ready for picking from late September to mid-October. The apples are large, round and green to yellow-green with a large pinkish-red blush and stripes. The yellow-white flesh is medium firm, juicy and pleasantly sweet aromatic. The flavour is also freshly sweet. The apples store quite well, but it is primarily a hand apple. Also suitable for making purée or juice and for use in salads. 'Notarisappel' is a Dutch cultivar found by notary van den Ham from Lunteren. Hardiness zone 6.
