

Malus toringo 'Sargent's Elegant'

Výška	5-6 m
Šírka	4-5m
Koruna	round/spherical, half-open crown, capricious growing
Kôra a vetvy	brown, grey
Listy	green
Jesenné sfarbenie	Žltá, Oranžová
Kvety	white, flowers in April
Plody	red
Tríne	Žiadny
Jedovatosť	Zvyčajne nie je jedovaté pre ľudí a väčšie zvieratá
Typ pôdy	clay soil, loamy soil, sandy soil, acid soil
Spevnené plochy	Toleruje spevnenie
Zóna odolnosti	5a (-28,8 do -26,1 °C)
Odolnosť voči vetru	good, susceptible to sea wind
Ostatná odolnosť	Odolné mrazu (WH 1–6), Odolné vetru
Stromy pre zvieratá a hmyz	Odolné mrazu (WH 1–6), Odolné vetru, Plody ako potrava pre vtáctvo
Použitie	úzke ulice, stromy do nádob, strešné záhrady, priemyselné oblasti, malé záhrady, dvory
Tvar	Vysokokmeň, Viackmeň

'Sargent's Elegant' is originally a bushy ornamental apple, which is often grafted onto a tall stem to form a small tree. Grafted at a height of 2.25 m, the tree will eventually grow about 4-5 m tall. The crown is round and densely branched and the branches have sturdy branch spines. The leaves are ovate and on the long shoots they often have two lateral lobes. In autumn, the leaves turn an attractive yellow-orange. From the third week of April until mid-May, the creamy white flowers open. The petals overlap, giving the approximately 2.5 cm large flowers a nice "full" appearance. The numerous small (6-10 mm) ornamental apples ripen around the end of August and remain on the tree until October. They are shiny purple-red.

'Sargent's Elegant' was selected as a seedling of *M. toringo* var. *sargentii* at the Boskoop Nursery Experiment Station and marketed by NAKB in 1996. Hardiness zone 5a.
