

Prunus avium 'Hedelfinger Riesenkirsche'

Výška	6-8 m
Šírka	6-8m
Koruna	broad ovoid, half-open crown, capricious growing
Kôra a vetvy	brown
Listy	green
Jesenné sfarbenie	Oranžová, Červená
Kvety	white, flowers in March
Plody	edible fruits, red, purple/brown
Tŕne	Žiadny
Jedovatosť	Zvyčajne nie je jedovaté pre ľudí a väčšie zvieratá
Typ pôdy	clay soil, loamy soil, sandy soil
Spevnené plochy	Netoleruje spevnené plochy
Zóna odolnosti	6 (-23,3 do -17,8 °C)
Odolnosť voči vetru	fairly
Ostatná odolnosť	Odolné mrazu (WH 1-6)
Stromy pre zvieratá a hmyz	Odolné mrazu (WH 1-6), Cenné pre včely (medonosné)
Použitie	malé záhrady, dvory
Tvar	Vysokokmeň, Viackmeň, Ovocný strom vysokokmeň

'Hedelfinger Riesenkirsche' is a sweet cherry with a semi-open crown of 6-8 m in height. The crown is broad ovoid and slightly irregular in shape. This cultivar produces beautiful orange to deep red autumn colours. The tree flowers around mid-April to early May with white blossom and is not very self-pollinating. Single trees will produce fruit, but a different cherry variety is needed for good fruiting. Preferably, 'Bigarreau Napoléon' or 'Kordia' is used for this purpose. The cherries of 'Hedelfinger Riesenkirsche' are ready for picking around mid-July. They are large and shiny dark red to brownish-red. The flesh is very juicy and pleasantly sweet. The cherries are very suitable for direct consumption, e.g. in desserts.

'Hedelfinger Riesenkirsche' was found around 1850 near Stuttgart, Germany. Hardiness zone 6.
