

Robinia pseudoacacia 'Nyirségi'

Výška	20 - 25 m, fast growing
Šírka	10-15m
Koruna	oval, half-open crown
Kôra a vetvy	twigs olive green to brown, large thorns, bark grey-brown, deeply grooved
Listy	odd-pinnate, 20 - 30 cm, 9 - 19 leaf segments, 1.5 - 4.5 cm, dark blue-green, feathered leaf
Kvety	rarely blossoms, in pendent racemes to 10 cm, creamy-white, about 2 cm, fragrant, June , fragrant flowers
Plody	very few, flat leathery pod, reddish brown, 5 - 10 cm
Tríne	Áno
Jedovatosť	Má jedovaté časti
Typ pôdy	few requirements as long as well drained
Pôdna vlhkosť	Vhodné do suchých pôd
Spevnené plochy	Toleruje spevnenie
Zóna odolnosti	5a (-28,8 do -26,1 °C)
Odolnosť voči vetru	moderate to good
Ostatná odolnosť	Odolné mrazu (WH 1–6), Odolné posypovej soli
Použitie	bulváre a široké ulice, priemyselné oblasti
Tvar	Vysokokmeň, Viackmeň
Pôvod	Hungary, before 1980

Robinia pseudoacacia 'Nyirsegi' is a Hungarian-origin selection that grows quickly and has a straight trunk with strongly ascending branches. Specially selected for its strong fibre, therefore used for hand tools. Height 20 - 25 m. Because of its vigorous growth, it is often used as a rootstock for 'Umbraculifera'. Characteristic are the large thorns on the branches. The compound leaves are dark blue-green. Short clusters of creamy-white flowers appear in June but the flowering time is shorter than for the species. Produces few legumes. Less wind sensitive than other cultivars. Hardiness zone: 5a
